M. Düren

Understanding the Bigger Energy Picture

DESERTEC and Beyond

Series: SpringerBriefs in Energy

- ▶ Describes today's energy problem and possible future solutions
- ▶ Provides an overview of the basic scientific facts and interrelations that are needed to understand today's energy generation and use, the relations to the world climate, the cycles of water and other resources, and the complexities of current energy policy
- ▶ Presents the main technical options for a world after the "Energiewende" and offers possible future solutions for a sustainable world
