

GGL lecture series Perspectives –
Gender Awareness and Career Chances for Women in the Life Sciences

Guest lecture by Prof. Dr. rer. nat. Thisbe Lindhorst:
Modern Perspectives in the Glycosciences

In cooperation with JLU's Institute of Organic Chemistry /
Prof. Dr. Richard Göttlich

03 December 2013, 5.15 pm – 6.45 pm
Venue: Institute of Organic Chemistry, Heinrich Buff Ring 58, lecture hall 18

Programme:

1. Welcome
2. Thisbe Lindhorst's talk about Glycosciences
3. Open discussion about her work and findings
4. Open discussion about career chances for young researchers and women in the life sciences

Prof. Dr. rer. nat. Thisbe Lindhorst:

Present academic position:

- Since 2000: Chair of Organic and Biological Chemistry at the Christian Albrechts University in Kiel
- Head of a research lab with specific interest in glycosciences and the biological function of the glycocalyx

Academic career:

- 1991: PhD in Hamburg
- 1992: Postdoc at the University of British Columbia, Vancouver/Canada
- 1998: Habilitation and Private Dozent in Hamburg
- 1999: Venia legendi for Organic Chemistry

Selected awards:

- 1998: Chemistry Award of the Göttingen Academy of Sciences and Humanities
- 2000: Carl-Duisberg-Gedächtnispreis Award

Further commitment:

- Board Member of the German Chemical Society (GDCh)
- Member of AcademiaNet (project for promoting female leaders in science)
- Initiator of the lecture series "Wertedenken – Denkwertes"
