

## Studying with children

Our services for student parents

### Advice

“Will I manage everything?“, “Can I be faithful to the requirements of my studies and my child?“, “How are things going on for my child and me after the break-up with my partner?“ - all of the previous are questions that can come up when studying with a child. If you're dealing with such or similar questions, the Familienservicestelle provides **advice** which is both, **confidential and free of charge**. You may come during the office hours or make an appointment.

### “Studying with children“ community (Netzwerk “Studieren mit Kind“)

For all student parents at JLU and THM, there is a welcoming cafe (“Begrüßungscafé“) at the start of each semester and different information events throughout each semester, i.a. with external speakers. All the events are free of charge and student parents have the opportunity to get to know each other and exchange views, experiences and helpful tips. Children are always warmly welcome.

The “Studying with children“ community's **mailing list** ensures that you are kept up to date with all key information and receive invitations to events for student parents.

If you would like to be added to the mailing list, simply send an email to:
