

PLANETARY TIMES WINTER WORKSHOP 2024

READING THE EARTH & STARS

Field methods for narrating geological & cosmic time

NOVEMBER 28-29

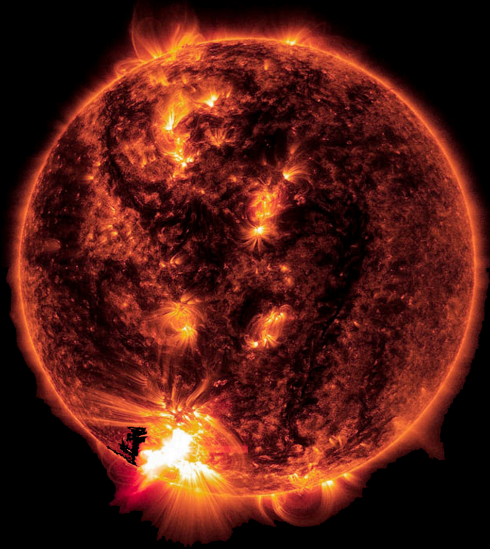

Aisling O'Carroll

&

Lukáš Likavčan

Fellows in the Planetary Scholars
& Artists in Residence Program

Panel on Planetary Thinking
Justus Liebig University
Giessen

Soil chromatography © Danielle Hewitt / Solar Flare © NASA/SDO

The workshop explores methods of narrating different modalities of (more-than-) planetary time through the interpretation of observations from astronomy, geology and soil studies. Through a series of talks, participatory experiments and collective discussions, the workshop aims to expand our understanding of planetary time through geohistories found below our feet and in surrounding materials, as well as cosmological histories found in the night sky.

Thursday, November 28 | 13:30 – 19:00

Conference room, Physikalischer Verein, Robert-Mayer-Strasse 2, 60325 Frankfurt am Main

- 13:30 | Arrival & introduction
 - 14:00 | Observatory tour by representatives of the physics association
 - 15:00 | Lecture & discussion: ***Orienteering for Transitioning Times*** by Adriana Knouf [artist, writer, musician, xenologist; tranxxenolab]
 - 16:30 | Screening & discussion: ***Cosmogony 1: Self-similarity of Models*** by András Cséfalvay [artist; AFAD Bratislava]
 - 18:00 | Stargazing workshop with unplugged music performance by Cséfalvay
-

Friday, November 29 | 09:30 – 17:30

Seminar room O24, Hermann Hoffmann Academy, Senckenbergstrasse 17, 35390 Giessen

- 09:45 | Introduction
- 10:00 | Soil chromatography workshop - part 1 by Danielle Hewitt [artist, historian; London Metropolitan University]
- 11:00 | Impulse talks [interdisciplinary]:
Hewitt: ***Soil Chromatography: Producing Images of and with the Soil***
Markus Fuchs [geomorphologist; JLU]: ***How to Read Time in Sediments through Light***
Jan Siemens [soil scientist; JLU]: ***How to Assess the Impact of Time and Humans on Soils***
- 13:00 | Lunch break
- 14:00 | Soil chromatography workshop - part 2
- 14:30 | Lecture (hybrid): ***Gaiagraphies: Inside the Critical Zones*** by Alexandra Arènes [landscape architect, researcher; IPGP Paris]
- 15:30 | Soil chromatography workshop - part 3
- 16:30 | Reflections on the workshop & conclusion

Register by **20.11.2024**, as number of participants is limited.

See our [website](#) for more details and registration.
