

# PROFILE: INITIATION OF INTERNATIONAL COLLABORATION

## 1. SUMMARY

The funding instrument serves to initiate international scientific cooperation. There are three different modules that can be applied for, which can be combined if they are closely related in time. These modules are "Project preparation workshops", "Project preparation trips abroad" and "Project preparation visits".

## 2. REQUIREMENTS

In principle, any scientist in the Federal Republic of Germany or at a German research institution abroad whose scientific training has been completed - usually with a PhD - is eligible to apply.

As a rule, persons who work in an institution that is not a non-profit organization or who are not permitted to publish their results immediately in a generally accessible form are not eligible to apply.

## 3. FACTS

### *Funding goal*

Promotion of project preparation for international cooperation

### *Target group*

Scientists with a PhD

### *Funding period*

Max. 12 months

### *Object of funding*

Project-specific, including funds for trips abroad, guest stays in Germany, project preparation workshops

### *Funding amount*

Dependent on application

### *Deadline*

Open, submission strongly recommended at least six months before the start of the measure

### *Processing time*

Not specified

### *Funding quota*

Not specified
