<b>Short Description of the School</b> Σύντομη περιγραφή του σχολείου	<p>The 5th Primary School of Nea Alikarnassos is a 6th grade school with 131 students, located in an area with significant historic burden and rich cultural heritage. Our teaching staff consists of the Headmistress, six primary school teachers and seven teachers of different school subjects. We have applied systematically various innovative educational programmes about health, environmental and cultural issues. During the recent years, our school is active and participates in European Comenius programmes (co-operation 2010-2012, assistant teacher 2012-2013, in service training, study visit). During the current school year we hosted a Maths University student from Poland, doing her training within the framework of Erasmus programme. Furthermore, the educational programme of the Greek Deputation of the European Commission "Teachers4Europe" is being carried out for the second consecutive school year. In the current school year we were chosen to take part in the School Innovation Programme.</p>

<b>Other</b> Άλλες πληροφορίες	We consider all these activities especially significant for the reinforcement of the European identity, not only of the teachers but mainly of the pupils and their parents. Through these programmes the sense of the European identity and the interaction with school from different European countries have been initiated and strengthened. That is the reason why we wish to continue all these efforts, which have altered our school profile and have offered amazing opportunities of broadening the horizons of the teachers and mainly of the pupils. We take pride in giving our pupils the chance to feel citizens not only of our homeland but also of Europe and of the whole world
