Erläuterungen

VORBERMerkung

In dieser Ausgabe zum Wintersemester 2008/2009 wurde der Aufbau der Tabellen der Studierendenstatistik der Universität Gießen vollständig überarbeitet. Dabei wurden die Bachelor- und Master-Studiengänge, die inzwischen flächendeckend angeboten werden, stärker in den Fokus gerückt. Außerdem wurde für die Studiengänge "Berufliche und betriebliche Bildung", mit denen nun der erste Lehramtsstudiengang in Bachelor-Master-Struktur an der JLU Einzug gehalten hat, ein neues Darstellungskonzept entwickelt.

Auf die folgenden Änderungen ist besonders hinzuweisen:

- Belegungszahlen von Nebenfächern und Studienelementen im Diplom sowie von 3. Nebenfächern, Studienelementen und weiteren Fächern im Magister werden nur noch in den Fachsemestertabellen (B-Teil) gesondert ausgewiesen. Dies führt in den Übersichtstabellen zu einem auffälligen Anwachsen der Fallzahlen bei den "Anderen Abschlüssen" (Spalte 27).
- Da weiterhin alle Studienfälle in der Statistik erfasst werden, zieht dies außerdem Abweichungen zwischen den "Sonstigen Fällen" in den Übersichtstabellen (A-Teil) und den Fachsemestertabellen (B-Teil) nach sich. Um den Unterschied verbal zu kennzeichnen, wird nun in "Andere Abschlüsse" (A) und "Sonstige Abschlüsse" (B) unterschieden (NB: in diese Kategorien fallen u.a. Abschlüsse wie Aufbaustudiengänge, Zusatz- oder Zertifikatsprüfungen.)
- Die Studierenden der bisherigen L4-Studiengänge finden Sie wie gewohnt in der Zeile "FR Berufl. L4". Bei Bachelor und Master "Berufliche und betriebliche Bildung" (BBB) sind sowohl die Fachrichtungen (Landwirtschaft, Hauswirtschaft, Nahrungsgewerbe) als auch die gewählten Unterrichtsfächer ausgewiesen. Die Fachrichtungen Metalltechnik bzw. Elektrotechnik, die in Kooperation mit der FH Gießen-Friedberg angeboten werden, finden Sie in den Übersichten zusammengefasst in der Zeile "Beruf.Bild. ME". Die Verteilung auf die Fächer ist in der Fachsemestertabelle "Aufbaustudiengänge (incl. BBB/L4)" (B-94) abgebildet.
- Darüber hinaus wurde das Konzept der "kapazitätswirksamen Fälle" bei den studienbereichsbezogenen Summen (Zeilensummen in Spalte 31) durch das Konzept der Studierenden, die einen "ersten berufsqualifizierenden Abschluss" anstreben, ersetzt. Die kapazitätswirksamen Fälle stellten nur eine annähernde Orientierungsgröße dar. Hingegen ist die Zahl der Personen im ersten berufsqualifizierenden Abschluss eine relevante Bezugsgröße für die Ziele des Hochschulpaktes 2020.

- Um das schnelle Nachschlagen zu erleichtern, sind die Erläuterungen zu den statistischen Begriffen jetzt auf der inneren, hinteren Umschlagseite neu platziert.

Korrekturbedarfe sowie Anregungen und Kritik zur Studierendenstatistik der Justus-Liebig-Universität Gießen nehmen wir gerne entgegen:

* Einige Detailauswertungen über die Fachwahlen bei Nebenfächern, Studienelementen sowie weiteren Fächern werden nur in den Fachsemestertabellen (Teil B) gesondert ausgewiesen. Die folgenden Kategorien sind nur in den Fachsemestertabellen spezifisch erfasst: "Master weitere Fächer", "Diplom - Nebenfach+Studienelement", "Magister 3. Nebenfach+Studienelement+w.F."

In den Übersichtstabellen (Teil A) werden die "Master weitere Fächer" in Spalte 9 und die verbleibenden Fälle unter "Andere" (Spalte 27) subsumiert; die "Sonstigen Abschlüsse" in den Fachsemestertabellen sind demgegenüber entsprechend vermindert.
